

THE PIERCE FAMILY

Military Missions

January-February 2007

Exodus 8:19 Then the magicians said unto Pharaoh, This is the finger of God.

Dear Friends,

Happy New Year - Our family is very thankful to you that we can start serving our ninth year in Overseas Military Missions as a result of your faithfulness in prayer and giving to help sustain this ministry on the field. The verse above explains many things we have seen in the ministry here in Germany. We have seen many new faces and visitors as we have passed out several hundred fliers across the community and being faithful in soul winning and preaching the Gospel. We praise the Lord new singles and families have come.

Saved and Baptized - We thank the Lord those who are getting saved are taking steps of obedience and getting baptized. We finished 2006 with people getting saved, baptized, and growing and serving God while stationed here in Germany.

The Children - The Military Ministry always provides the need to have a good solid children's program. Karin has been gifted in a great way to work also with the children on Sunday evening through our Patch the Pirate Program. This has also helped with getting families involved on Sunday night for church. The young people did a tremendous job on their Patch Christmas Program.

Activities - We enjoyed taking the singles, teens and some young married couples ice skating. We provide many activities during the month that will offer a great time of fellowship for many various age groups. We believe good fellowship is important for spiritual growth. We have seen new singles and young couples as a result of providing these programs for them.

Training - We also see God working on many hearts and calling families into full time service. We had seven men share a testimony or preach on New Year's. We were thrilled to see many of them stand and preach about Christ and what He has done. Many of these men have been deployed to war zones around the world and have been a great testimony to many soldiers during that time. We are very privileged to help train and influence these men in the ministry.

Prayer - We ask if you would continue to pray for our fellow missionary Dave Mros that we work together with here in Germany as he recovers from major back surgery. The operation was nine hours to replace two discs. The recovery has been slow as they also found a blood clot in his lower calf muscle. Pray the Lord will give him strength and encouragement during this time. We have also noticed that the euro has dropped to about \$.73 for every dollar we exchange (1 dollar = \$.73). We lose about 27 cents. Pray that the dollar would get stronger here.

Soldiers for Christ,

Harold and Karin Pierce
